

### PERSONAL VAULT SET UP

1. Connect to VPN.

 Click on the Windows logo to open the Start Menu. At the top of the list, click on the @Workstation Utilities folder, then select the Password Self Service link.

3. Enter your User ID (same user id used to log into your computer). Click the Continue button.

Password Self Service: Login
Enter User ID:
Continue

 You have 2 or 3 choices: Use password, Answer security questions OR Mobile Device. Click the option you need. For this example, the Use Password option is selected.

5. Enter your **password** (same password used to login to your computer). Click the Login button.

	Personal vault	

 You will be prompted to set up your personal vault account. Enter a passphrase in the Passphrase field and enter the same passphrase in the Confirm passphrase field.

Click the **Create** button.

Personal vault
Personal vaults are used to securely store passwords. They are encrypted and can only be retrieved with the correct passphrase. Choose a passphrase that: • is easy to remember • is something you alone know • you will not forget (without it all data is lost) The passphrase must:
Confirm passphrase Create

## PERSONAL VAULT

 TRACK YOUR PASSWORDS Click Add account under the OPERATIONS menu.
